# Apple Market Coupon Policy

We will gladly accept manufacturer coupons that have been clipped from newspapers or magazines as well as internet coupons that have been printed by customers.

## Manufacturer Coupons

One (1) coupon per product purchased

Limit of 2 like coupons per like item per total transaction

Coupon must match the item purchased (brand product & size)

All coupons must have expiration date

Coupons cannot be expired

Coupons must contain a redemption address

Coupons must scan at the register

Original coupons only, photocopies cannot be accepted

#### Internet Coupons

Internet coupons are subject to the same requirements listed above

We do not accept internet coupon for free items

We do not accept home printed manufacturer coupons that offer \$ off (i.e.) \$1.00 \$2.00\$3.00)

that exceed more then half the retail price of the product

We gladly accept legitimate coupons, However there are growing number of fraudulent internet coupons in circulation. We are committed to protecting our customers, manufacturers, and our company against this illegal activity. Please understand if we cannot honor an internet coupon that has been presented. Management has the right to refuse any coupon or to limit quantities of internet coupons.

### **Double Coupons**

Retailer coupons not doubled

Customers must purchase coupon product in specified size

We will not double or accept expired coupons

One coupon per customer per item

Coupon for free merchandise will not be doubled

Coupons with \$.50 or more will not be doubled

If coupon value exceeds price of product when doubled will not accept

Coupons used on advertised sales item will not be doubled.

## Number of coupons per item

It is the policy of Apple Market to accept one manufacturer coupon and one Store coupon per item; however the value of the coupons cannot exceed the price of the item. If the value of the coupon exceeds the item price, only the amount up to the item price will be reduced.
